

CLIMATE 2020

A RESILIENT & SUSTAINABLE AUSTRALIA

SPONSORSHIP OPPORTUNITIES

CLIMATE 2020 will focus on the role of climate change science in identifying and managing Australia's climate challenges. The program will feature plenaries and presentations exploring themes including climate model development, coastal climate, climate variability and change, Australia's water and carbon, projections of climate changes and extremes, traditional knowledge, and provision, communication and application of climate change information.

The event will be a prime networking opportunity for researchers, policymakers, industry and community representatives, students and those involved in the development, exchange and application of climate change information.

Conference sponsors will enjoy excellent exposure at this highly regarded event with a number of sponsorship packages on offer.
